"Space is for everybody, but OASA, is for a select few. This Academy accepts only the courageous, grounded, and broad minded creators of new businesses... the true explorers who can help push and define our NewSpace economy."

—DR. G, FOUNDING CHAIRMAN

LEARN TO CREATE

- Join forces with others to create and connect concepts and ideas, people and the application of technologies, with new and evolving markets. Build it, break it apart, and learn rapidly from your mistakes.
- Learn to solve wicked problems that are complex and fluffy.
- Access opportunities to fine-tune and hone your leadership and project management skills
- Learn how to create, by doing.

EARN CREDITS

- Earn entrepreneurial and project credits that someday, would be acceptable by future employers, university admission offices, and potentially other professional organisations.
- Build up OASA competency credits for discounted workshop, events, site visits, and merchandise.
- Receive up to 50% discounts to workshops by OASA or by our educational partners such as the Lab for Space Research at HKU.

The Code of Astropreneurs

I am an Astropreneur. I am an explorer, an entrepreneur, and paradoxically, am both a dreamer and a pragmatist. Only those who are visionary but with the right grounding with the NewSpace Economy can be true Astropreneur. This is me!

I yearn to solve the universe's great mysteries. My dreams are like thirsts. I thirst for knowledge, to experiment, and test my assumptions. It is this faith that I alone have the seed of a better idea, and through rapid prototyping with others who think differently, that these ideas will eventually become possible. My thinking is good but can be so much better. That is why I am continually asking great questions. You cannot fool me because I seek clues, data, and evidence and not half-truths.

May we Astropreneur dwell in the best of spacetimes and never be afraid to ask good questions.

Above all, I seek the chance to solve wicked problems. I seek the opportunity to act, to raise my hand and to make a difference for humanity. I want to face challenges that are sometimes hard, massive, or even stormy. All challenges are beautiful as they provide the context for improvement. Through overcoming these challenges, even if it takes me many tries, my talent shall reveal itself. This is because I am talented in my ways. I will build on this talent and apply that to the next challenges at hand.

"Be unique. Be authentic. Be true to yourself." That is my motto as a spacefarer. I am calm by nature because I can understand this universe is interconnected, interdependent, and modular. Nothing surprises me, not even alien beings and StarGates. This is because I aim to seek first to understand, then to be understood. I am a systems thinker.

Steady as we go fellow Astropreneurs!

- *“Ask not what OASA can do for you, but how you can do your part to make a difference and contribute to the NewSpace Economy.”*
